

Remote Hiring Services

Welcome to Luza!

Luza is a tech company part of the Cronos Group. From Portugal, our Global Microsoft Hub has been helping Microsoft Partners around Europe to bring their customers' projects to life and make the most of Microsoft technology.

FIELDS OF PLAY

Talent as a Service

Enhance your overall performance and competitiveness in the market, leveraging outsourcing benefits, such as cost reduction, access to skilled experts, increased operational efficiency, flexibility to scale resources as needed, and renewed focus on core competencies.

Team as a Service

Highly skilled and flexible human resources to assist with specific projects, reducing onboarding time, hiring and training costs. Enabling agile scalability and providing quick access to experts to address the ever-changing operational needs of your company or teams.

Managed Services

Luza can proactively manage the Microsoft apps of your company/customer, including first line support, second and third line and training, ensuring high availability, optimized performance, and minimizing disruptions, allowing your teams to focus on its core activities.

LUZA COMMITMENT

Being your strategic partner in the **Growth of your business.**

Solutions designed to **optimize processes, reduce operational costs, bring productivity gains, and additional profitability.**

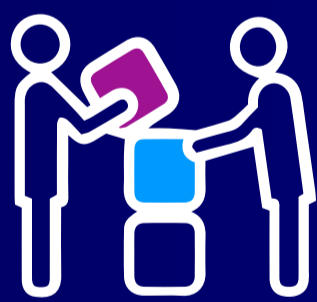

Microsoft Services aligned with the **unique needs** of your business, adding significant **competitive advantage, agility, and the ability** to bring **new opportunities.**

Full commitment that each investment translates into one or more **tangible results.**

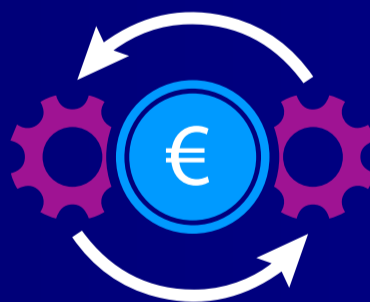

WHY PORTUGAL FOR REMOTE HIRING SERVICES?

Cultural Affinity

Shared cultural traits with Europe ease collaboration and integration.

Cost-Effectiveness

Lower labor costs compared to Western Europe attract businesses seeking savings.

Skilled Workforce

Portugal boasts a proficient workforce in IT, engineering, and digital services.

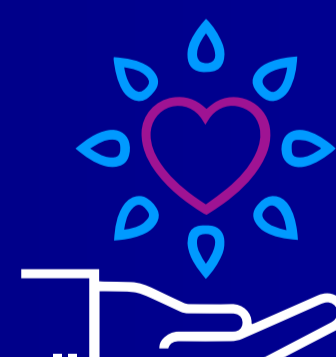

Timezone Advantage

GMT timezone facilitates collaboration across Europe and the Americas.

Tech Infrastructure

Portugal offers modern facilities and advanced technology support.

Quality of Life

Pleasant weather, landscapes, and cultural richness make Portugal appealing to talent.

Leverage Microsoft's expertise through Luza to overcome talent shortages and better help your clients to innovate at the speed of the business. Interested in exploring the possibilities?
